EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ackerman on 1/20/2006.

The application has been amended as follows:

IN THE SPECIFICATION

Before the phrase "hard baked" as disclose in line 2 on page 7, insert a phrase of --in nitrogen--.

IN THE CLAIM

Re. Claim 1: Before the phrase "coil" as recited in line 7, delete the phrase "lower".

2. The following is an examiner's statement of reasons for allowance: Upon further consideration, the prior art of record fails to disclose the claimed invention such as etching a first layer to form a cavity and forming a copper coil on the cavity floor. The closest reference Hsu et al. teach a process of making a write head including a process of forming a coil layer on a gap layer follow by forming a first layer having a cavity, which is an opposite process to compare with the claimed invention. Also, the claimed

invention recites that applying the photoresist to cover the coil and then hard baking the photoresist follow by planarizing process. However, the photoresist used by Hsu et al. is already hard baked. In addition to that Hsu et al. fail to teach the alumina for serving to stabilize the baked photoresist layer whereby the baked photoresist layer does not delaminate as the supper surface is approached. Therefore, it would not be obvious to modify Hsu et al. by changing the process order or adding baking process to bake the already hard baked photoresist layer, since doing so would destroy the structure of write head of Hsu et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-8 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Friday between 6:00 AM to 2:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
